How we develop our cowboys and cowgirls!

At our hands on horsemanship camp children develop new western riding skills as well as learning:

- Horse and stable management
- Parts of the horse
- Parts of the tack
- Horse colors and breeds
- Horse first aid and bandaging and
- How to clip and bath a horse

Here at WW stables we believe that proper horsemanship isn't just learning how to ride but also learning how to properly care for your animal and friend, the horse.

The daily tid-bits!!

- Camp will begin at 9:00am and finish at 4:00pm every day.
- Children are required to bring appropriate riding gear:
 - long pants such as jeans
 - Boots with at least a half inch heel, hiking boots are great!
 - A helmet: hockey, bicycle or riding helmets are great
- Children must bring their own lunches, snacks and drinks:
 - On hot days make sure to bring lots of water to stay hydrated!

A bit about our coach...

Wendy is a level II certified Equine Canada coach with more than 25 years of experience in the horse industry.

She along with many of her students compete in local and national shows and consistently are taking home many of the year-end awards.

Wendy has been the MHC Coach of the year multiple times throughout her career which is no surprise. Her skill and finesse as a coach is evident in all her students as they are not only great riders but great horse people.
